Photodentro/Educational Video is the Greek Educational Video Repository for primary and secondary education. It has been designed and developed by CTI Diophantus in the framework of "Digital School" in order to host collections of curriculum related short-length videos that can be used in the learning process. It is open to all, students, teachers, parents, as well as anybody else interested. The Photodentro/Educational Video Repository is one of the Educational Content Repositories of the Photodentro group.

Videos in the Photodentro/Educational Video Repository are:

- Short length (up to 10 min),
- Curriculum-related, that can be used in primary and secondary education
- Appropriate for in-class use, within learning activities
- Core-concept clips

Photodentro/Educational Video is the Greek Educational Video Repository for primary and secondary education. It has been designed and developed by CTI Diophantus in the framework of "Digital School" in order to host collections of curriculum related short-length videos that can be used in the learning process. It is open to all, students, teachers, parents, as well as anybody else interested. The Photodentro/Educational Video Repository is one of the Educational Content Repositories of the Photodentro group.

The first collection of the Photodentro/Educational Video Repository consists of the 700 short length videos of the Hellenic Educational TV (ETV) of the Greek Ministry of Education and Religious Affairs. These videos have been selected and segmented from their original ETV films and have been annotated in the context of the EU-funded project EduTubePlus - A European curriculum related video library and hybrid e-services for the pedagogical exploitation of video in class (www.edutubeplus.info). The Photodentro/Educational Video Repository will be linked to the National Greek Aggregator of Educational Metadata Photodentro

- Videos in the Photodentro/Educational Video Repository are:
- Short length (up to 10 min),
 - Curriculum-related, that can be used in primary and secondary education
 - Appropriate for in-class use, within learning activities
 - Core-concept clips

All videos in the Photodentro/Educational Video Repository have been classified according to their pedagogical use within learning activities, following EduTubePlus taxonomy for the pedagogical use of video in education (www.edutubeplus.info)
