Use this syntax if you want to force a new line without a new paragraph.</i></p>	<p>This is text with linebreaks\\ The two backslashes are only recognized at the end of a line\\ followed by\\ a whitespace. \\This happens without it.</p>	<p>This is text with line breaks The two backslashes are only recognized at the end of a line followed by a whitespace. \\This happens without it.</p>
<p>Images and Files</p> <p><i>You cannot add these to the page until you have uploaded it to the wiki.</i></p> <p><i>*See notes below for instructions on uploading files.</i></p>	<p>{{ pagename:filename.doc }}</p> <p>{{ pagename:filename.doc DisplayText }}</p>	<p>filename.doc</p> <p>DisplayText</p>

*To upload an image or file:

1. Click on the **Add images and other files** button that is located just above the text box (*the button looks like a brown frame with a picture inside of it*)
2. Select **Browse** and locate the file to be uploaded
3. Click on the **Upload** button

The file should now be listed with other uploaded files just below the **Upload** button. You can insert the uploaded document by clicking on it, or using the syntax in the table above.
